Bright TV Viewership Analytics

About Bright TV

A subscription-based media company delivering premium content to viewers across South Africa.

CEO's Strategic Goal

Grow the subscription base significantly during this financial year to expand market reach.

Aim

Analyze 4 months of historical user profile and viewership data to extract insights for the CVM team.

Introduction

Project Purpose & Context

Project Planning

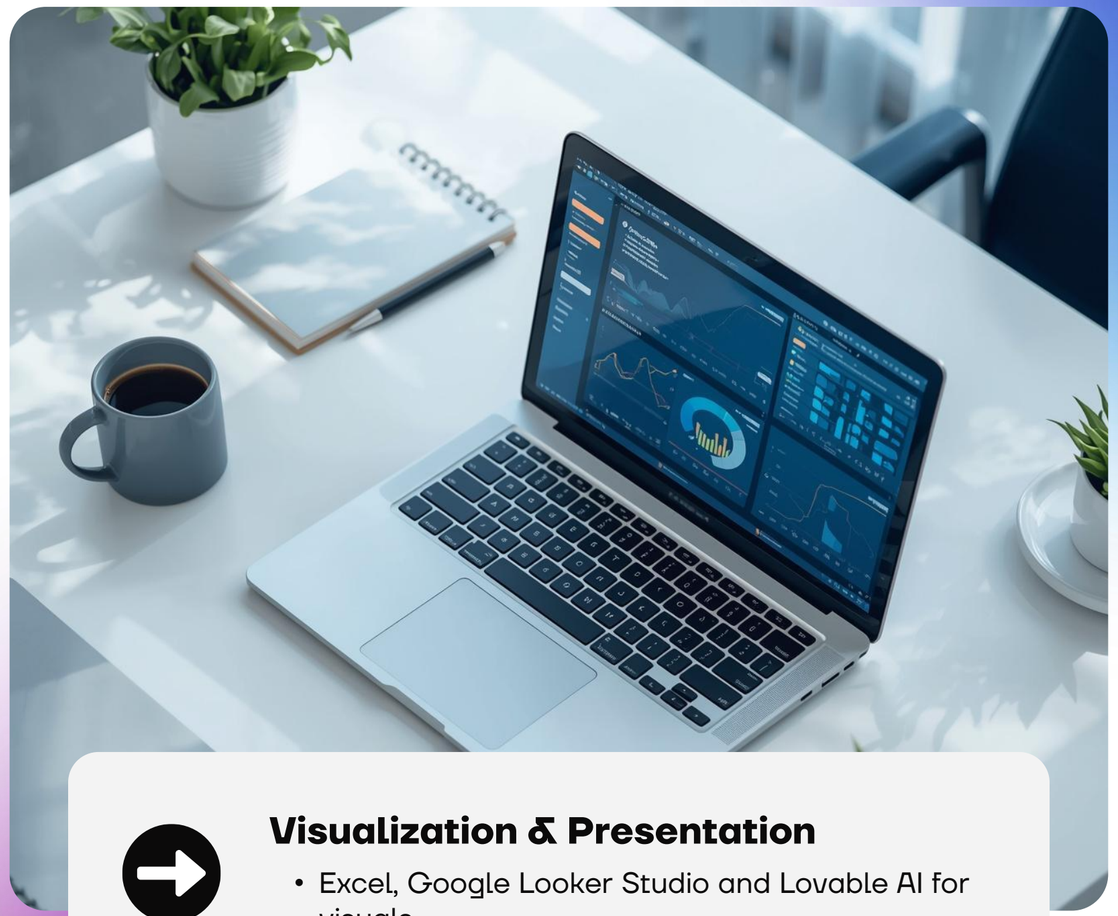
Miro for process flow diagrams, Canva for Gantt Chart scheduling.

Data Processing

Databricks SQL for querying and transforming historical viewership data.

Data Systems Overview

Tools & Technologies



Visualization & Presentation

- Excel, Google Looker Studio and Lovable AI for visuals.
- PowerPoint and CANVA AI for presentation.

Channel Viewership Insights

Demographics : Gender and Age

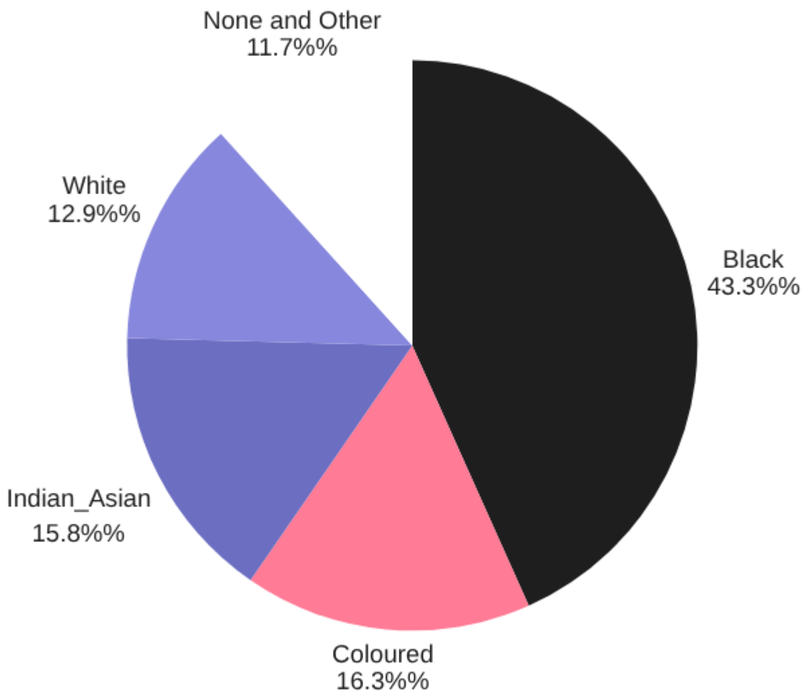
Viewer Distribution

Gender Breakdown
Male viewers dominate with 8,761 views while female viewers account for 977 views.

Age Groups
Youth leads with 5,632 views, adults follow with 3,776, and elders at 53 views.

Race Distribution

Bright TV Viewership Analytics



Source: AI-generated data. Replace or verify before use.

Viewership by Race

- Black viewers represent the largest share at 43.3%, followed by Coloured (16.3%), Indian/Asian (15.8%), and White (12.9%).
- None and Other categories make up the remaining viewership.

Bright TV Viewership Analytics

Provincial Distribution

Viewership by Region

Top Provinces

Gauteng leads with 3,654 views, followed by Western Cape (1,845) and KwaZulu Natal (1,001).

Lower Viewership

Free State (292 views) and Northern Cape (230 views) show lowest engagement.

Growth Opportunity

Regional promotions in underperforming provinces can unlock significant subscriber growth.

Actionable Growth Strategies

Recommendations

Content Strategy

- Promote popular sports and music channels on low consumption days like Monday.
- Target female viewers with content such as E! Entertainment and African Magic.
