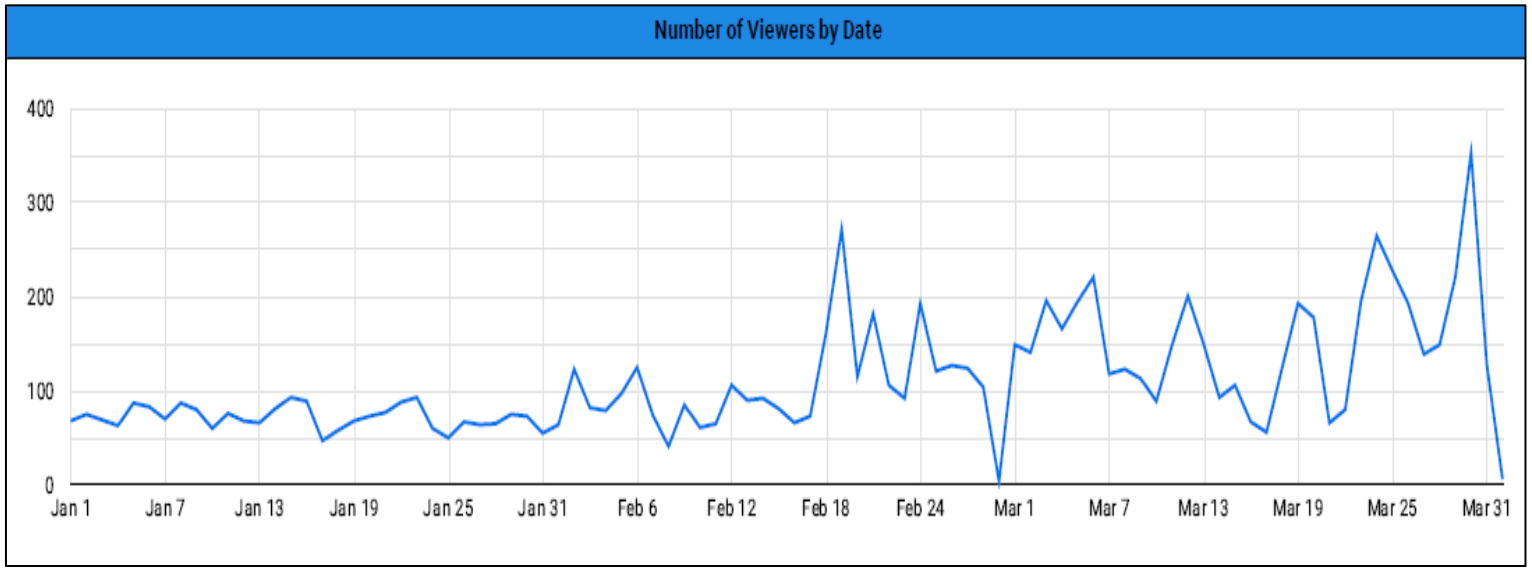
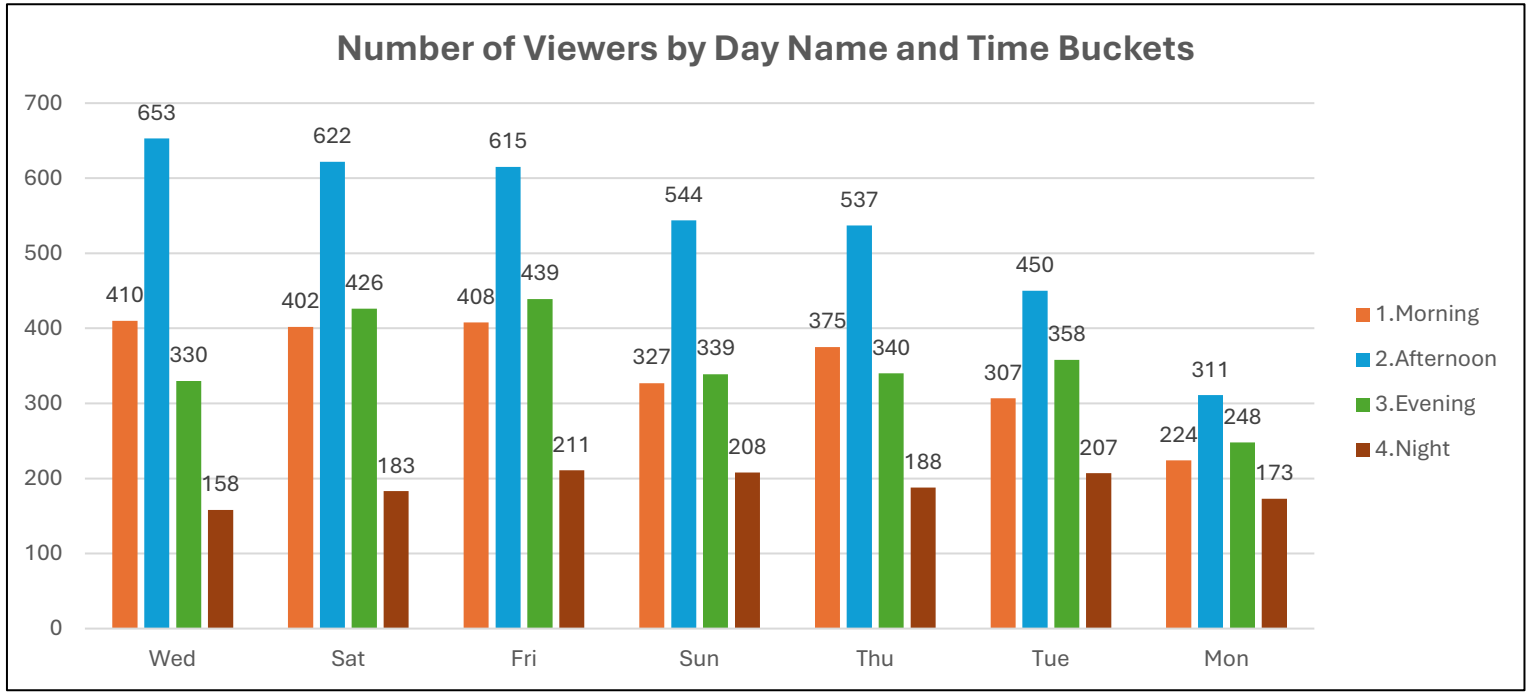
4.	Trace TV	952
5.	SuperSport Blitz	896
6.	Africa Magic	857
7.	Cartoon Network	793
8.	Boomerang	714
9.	CNN	505
10.	E! Entertainment	367

Insights

- The total number of TV viewers is 9993.
- There are 21 TV channels.
- The most viewed channels are Supersport Live Events (1637 viewers), ICC Cricket World Cup 2011 (1464 viewers) and Channel 0 (1048 viewers)
- Least viewed channels having less than 10 viewers are Sawsee, Wimbledon and Live on SuperSport

Analysis

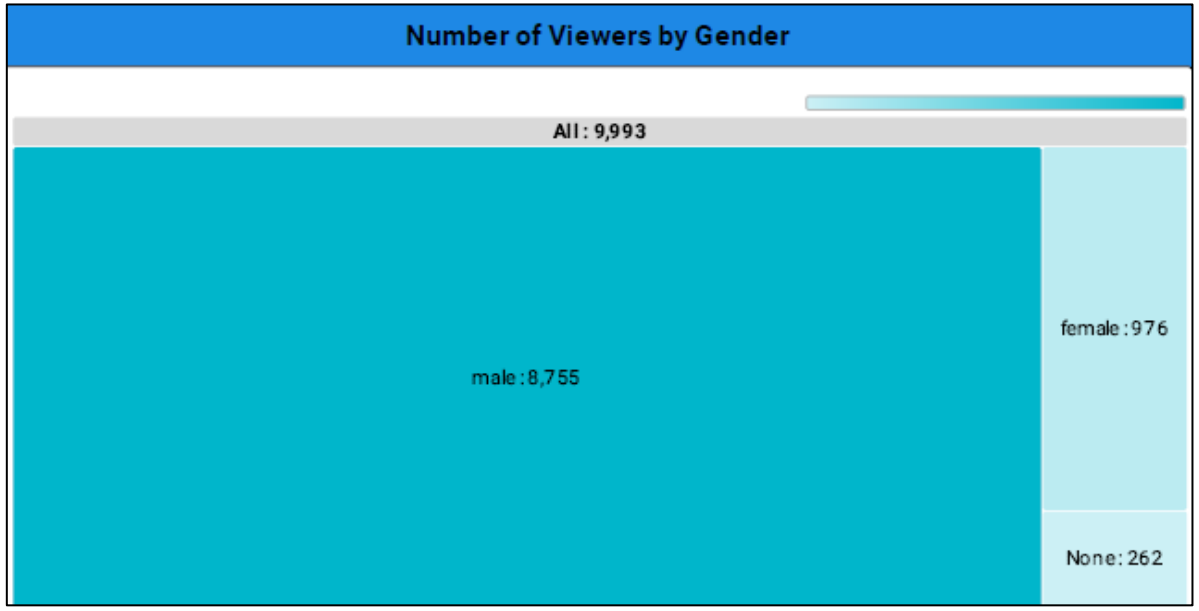


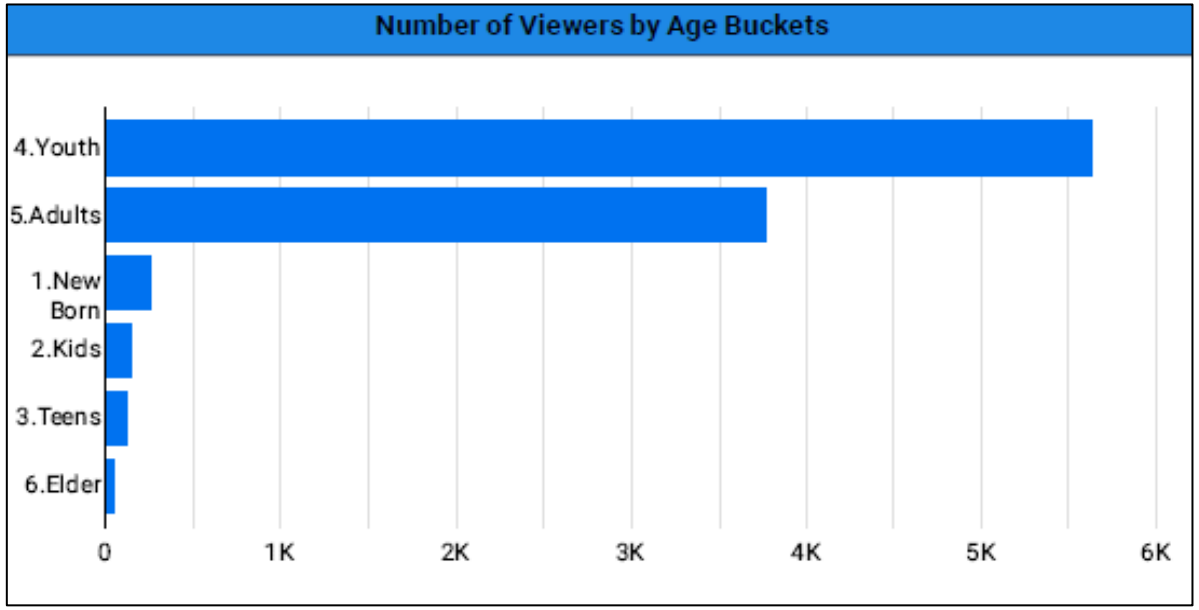


Insights

- An increase in viewers is observed after the 1st , making March the month with the highest number of viewers, although a slight increase was observed around the 18th February.
- Days with the largest number of viewers are Wednesday, followed by Saturday and Friday.
- Monday has the least number of viewers.
- In all days the number of viewers is largest in the afternoon, followed by the evening, and it is lowest at night.

Analysis

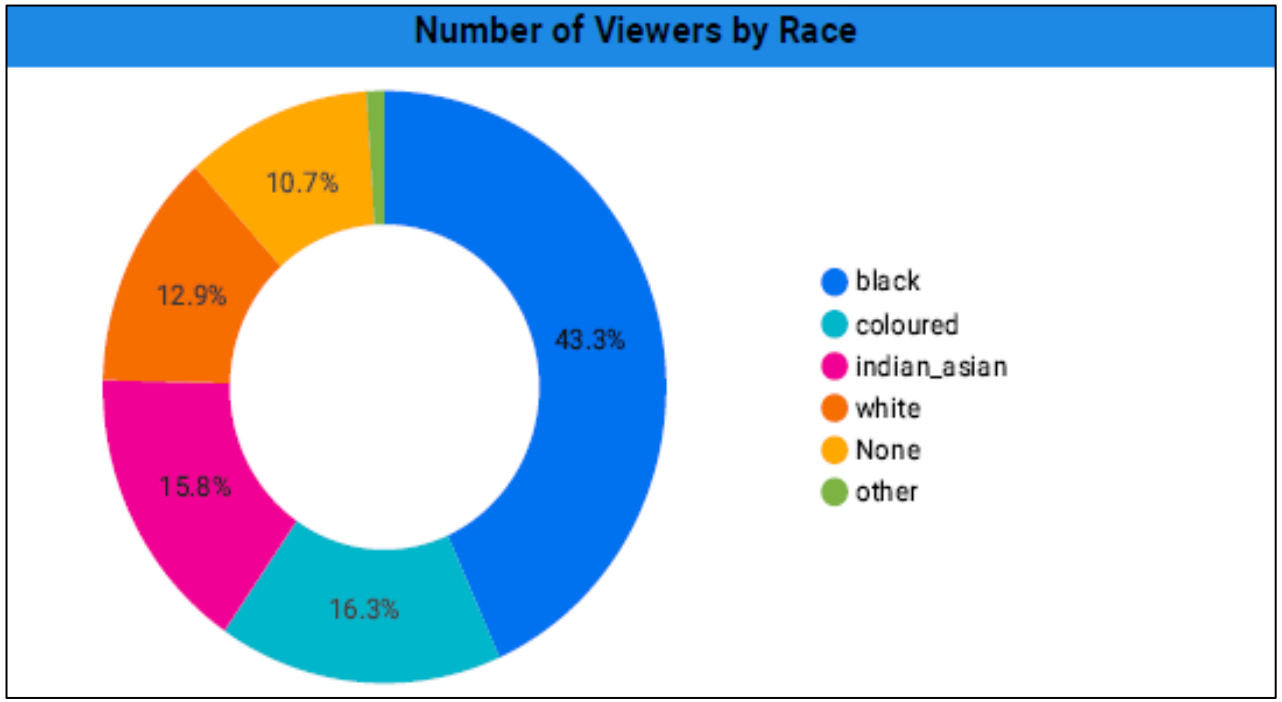




Insights

- The gender with highest TV viewership is Males (8755), while female have low (976) viewership.
- It is hard to classify the None gender category because they did not provide enough information.
- The Youth age group form the largest number of viewers, followed by adults
- While elders are the lowest number of viewers.

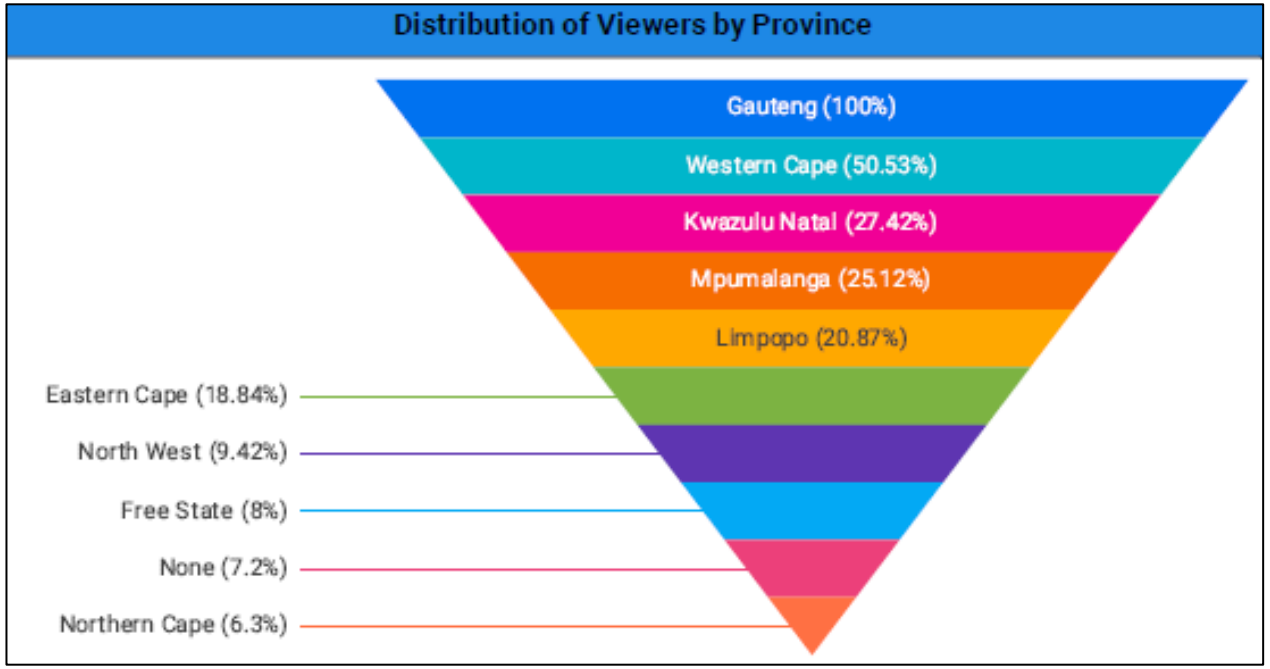
Analysis



Insights

- The Black Race is the major TV viewer
- Coloured and Indian_Asian have almost equal TV viewership
- While the White Race has a low (12.9%) viewership
- The None category did not provide information about their Race, so it is not possible to classify them
- While the Other Race category maybe they do not fall within the specified categories

Analysis



Insights

- Gauteng has the largest number of TV viewers, followed by Western Cape
- North West, Free State and Northern Cape have low that 10% viewers
- The None category did not specify their exact province location

Recommendations

- Show content with high number of viewers such as: Supersport Live Events, ICC Cricket World Cup 2011 and Channel 0, on days with low TV consumption to increase viewership.
- Introduce more TV shows that use languages which cater for the different races.
- Show more content that attracts males as they are the ones who consume more TV content, especially sports related content.
- Promote shows that can increase female viewers.
- Increase contents that attract the youth and adults.
- Have marketing campaigns and promotions directed at provinces with high number of viewers such as Gauteng and Western cape.

Q & A
